

Executive Coaching

- When an individual or a team commits to winning Olympic Gold they would never dream of preparing for competition without a coach.
- Yet, Entrepreneurs, Executives, Professionals and Salespeople routinely go for "Business Gold" without a coach.
- As a human being---it's nearly impossible to view your own performance objectively; especially when you're in the middle of the game.
- A coach is someone that helps you maintain your focus by reminding you of—and supporting you in your stated intentions and outcomes.
- A good coach is an objective success partner that "keeps you in shape" and occasionally "sends in a strategy" for the next part of the project.

- Working together by phone allows us to focus strictly complete privacy in your work or home setting.
- This format also eliminates the distractions of an in-person visit and unproductive travel time.
- There is no need to be located in the same geographical area to benefit from our sessions.
- If you live in North America, you can reach us 7 days a week, 24 hours a day by e-mail.
- Our response time for email is 24 hours or less. Regular coaching sessions are scheduled in advance.
- Since your life is full of surprises, unexpected opportunities and successes— we encourage spontaneous calls, faxes and emails in between appointments.
- If you need additional support, want our input on a situation or have great news to share... We are here for you.

**An Effective Coach May Be
More Valuable Than An M.B.A.**
